ARNED-CELA AGENCIES

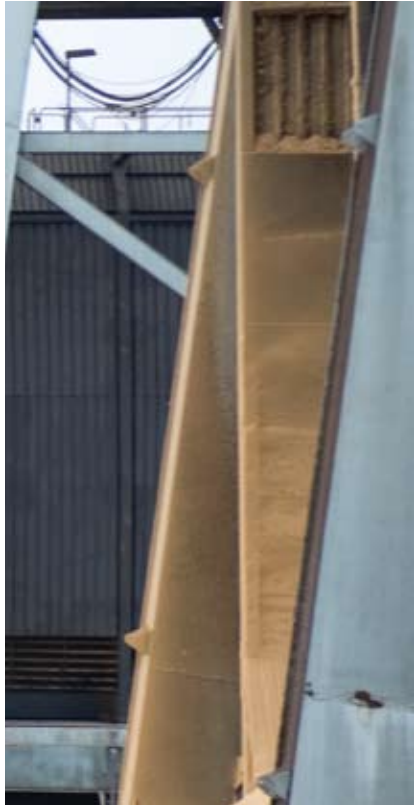

Introduction

ARNED-CELA Agencies is a leading international oriented company, specialised in agency business, logistics and many other maritime-related services. Our company was established during the late sixties of the last century. We are proud to act as port agents for more than two thousand vessels each year throughout the Dutch and Belgian ports. Because we really care about quality and a reliable approach towards our customers, we are steadily growing. Our focus, however, remains on maintaining a professional and personal approach.

This high-quality service is offered by our dedicated, trained and skilled staff, 7 days a week, 24 hrs a day, in all major Dutch and Belgian ports. We are consistently refining our ability to benefit our customers. With this brochure we would like to introduce the different business areas of the shipping industry we are specialised in. ARNED-CELA Agencies is looking forward to being your reliable partner in the maritime agency & logistics industry.

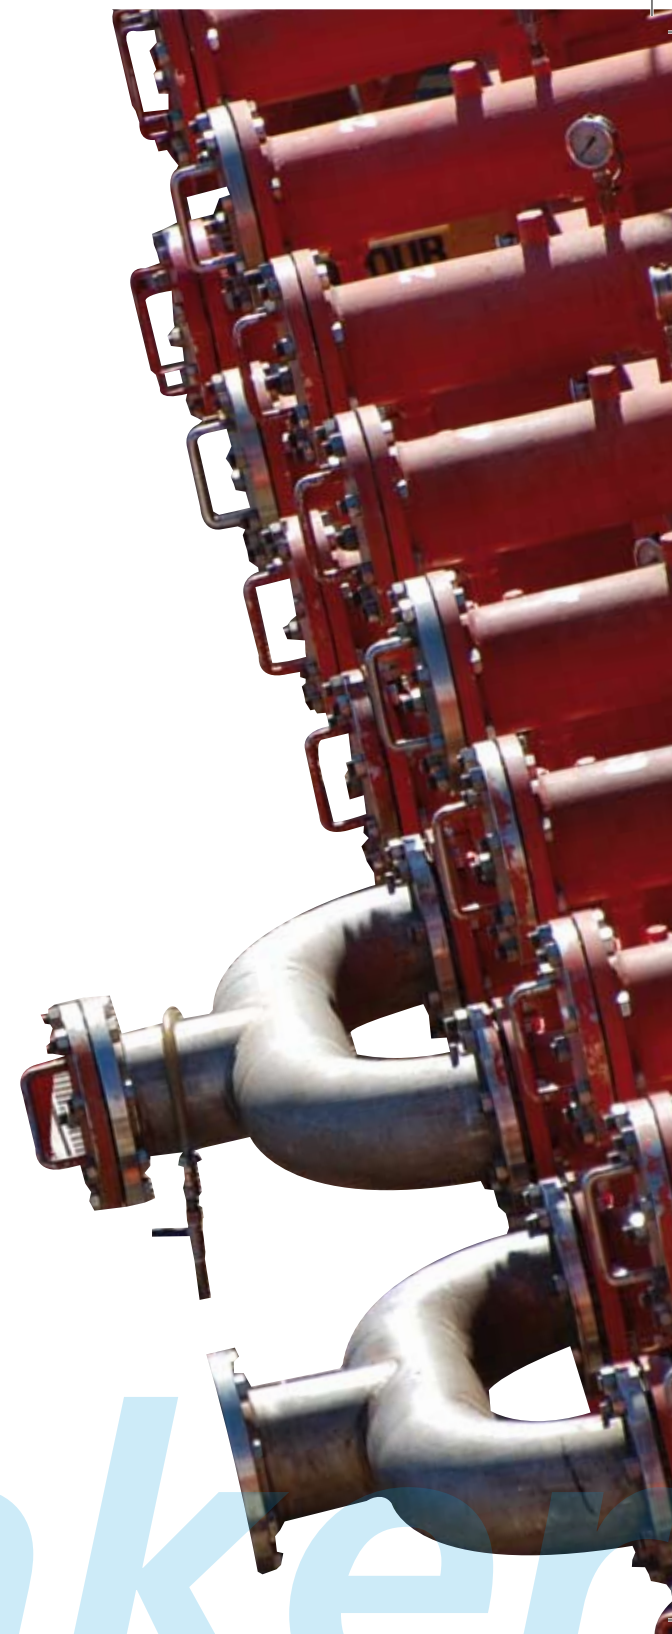

Introduce

Tankers

On the day ARNED–CELA Agencies was founded, the first priority was the aim to serve the chemical and oil industry with a service level which was new to many of the long existing companies. We feel that not only the owner or charterer of a vessel is to be considered as our client, but also the entire range of contacts such as terminals, surveyors, vetting inspectors, bunker suppliers and many others are receiving daily updates regarding positions etc. Today we are proud to say that we feel we have succeeded in our aim to be one of the better agents in the ARA-range, as we consider ourselves as one the major players in the field of tanker agencies. Our staff is well experienced in handling tanker vessels, whether such vessel is a chemical, product, oil or gas tanker.

Tanker

Dry Bulk

Both Antwerp, Ghent and Rotterdam are by far Europe's most important dry bulk ports. ARNED-CELA Agencies is offering agency services to principals who are transporting all sorts of dry bulk products, in large or small quantities. Several renowned trading houses using Antwerp, Ghent and Rotterdam as their main port have chosen ARNED-CELA Agencies as their reliable partner. Years of experience has been built up together with an excellent network of traders, receivers, shore-terminals, floating crane companies and surveyors. Whether you are dealing with ore(s), grain(s), coal(s) or fertilizer(s), whenever you have the cargo or the ship, we have the agency experience to serve you.

Drv Bulk

Projects-General

Customised service! That is most important when talking about conventional, break bulk, and project cargo. Millions of tonnes are handled in Europe's largest ports located in the middle of the continent. We consider this business area to be a narrow niche market which requires high professional skills and expertise in the market. Our company is heavily involved in serving several clients carrying such cargoes. As we represent several shipping lines operating state-of-the-art heavy-lift vessels, we can offer competitive freight rates. In case the vessel's gear is unable to handle your heavy-lift cargo, we will be able to assist with floating crane(s) or shore crane(s) with sufficient lifting capacity. Over the years we established excellent relationships with stevedores and lashing companies enabling us to guarantee a smooth and reliable chain of supply towards our customers.

Liner Agencies

ARNED-CELA Agencies is a reputable and independent liner agency and represents several shipping lines active in transport of containers, break-bulk, heavy lift and project cargoes. Our liner department is well equipped to supply our customers with all necessary information and shipping documentation at all times. The accumulated vast experience and know-how in the field of ocean-going transport, always results in the best way to ship valued cargo. Satisfying our customers with detailed, correct and up-to date information is our prime objective.

Brokerage-Chartering-Forw

Brokerage-Chartering

Suppose that regular ships and their strict sailing schedules are not fitting into your schedule... Or you demand special requirements for your cargo, ports and capacity which makes you need a vessel to transport your cargo whenever and wherever you want it...

We would be glad in helping you to find a suitable vessel at the right time and in the right place to carry your cargo, against a reasonable cost.

Forwarding

As we consider both Rotterdam and Antwerp as one of the most important ports for conventional & project cargoes in West Europe, we created a separate division within our agency department which is responsible for forwarding & stevedoring. This department is integrated into the agency department. Via this set-up all parties involved such as shippers, fob-suppliers or receivers, stevedores and the shipping line can be closely informed about cargo movements before or after loading/unloading the carrier. With this 'all-in-one' service, we believe it will reduce the space for errors and miscommunications which often lead to loss of time and money.
